## ***DIMSPORT SOLUTIONS FOR THIS VEHICLE***

### ***RAPID BIKE EVO***

It puts in your hands total control of fueling operations as it is directly connected to all stock injectors (up to eight) while managing at the same time the corresponding air/fuel ratio. In this way the carburetion values can be modified throughout the entire engine power delivery curve.

### ***RAPID BIKE EASY***

Equipped with a microprocessor managing directly the lambda sensor signal to optimize the air/fuel ratio, improve the engine efficiency and eliminate the torque and power gaps

## ***RAPID BIKE RACING***

It represents the highest level of technology available for reaching top performance, offering the widest range of solutions for demanding professional track riders and street users.
